## EXPERIENCE

### 2020 - Freelance Web Designer/Dev
- Created Designs for local companies
- Developed user-friendly websites
- Utilized latest technologies to create responsive and professional environments for clients

### 2020 - DevPoint Labs Student
- Participated in an eleven week full time accelerated web development course
- Learned how to work as a remote team using tools such as Vs Code Live, Zoom, and GitHub
- Built projects daily ranging from small one day projects to a four-week long final capstone project

### 2020 - Frame solar company
- Designed solar panel proposals
- Participated in real groups to develop the Frame application
- Gained experience working remotely
